The Paralympic Sport Entries process comprises three phases.

PHASE I (Confirmation of Qualification)

The first phase is the NPC's confirmation of qualification slot usage. Through Shooting qualifications criteria, NPCs are requested to confirm the use of qualification slots allocated to them or their qualified athletes to the IPC by the deadline of each sport outlined in the Beijing 2008 Paralympic Games Qualification Guide.

Sport Classification

Introduction

Classification is an integral component of sports for athletes with a disability. It strives to ensure fair competition by systematically grouping athletes according to their functional abilities in each sport. Classification is an ongoing process, organized by each International Paralympic Sport Federation (IPSF).

The goal of the IPC and BOCOG is to ensure that classification services at the Beijing 2008 Paralympic Games are of the highest quality and are sport and athlete focused. The key objectives are to:

- Support International Paralympic Sport Federations and NPCs to reduce the number of athletes required to undergo classification assessment upon arrival at the Beijing 2008 Paralympic Games (Pre-Games Classification Evaluation) to a maximum of 10 per cent of the total number of athletes competing in the Games.
- Assist with the provision of regular information to athletes and NPCs regarding opportunities for pre-Games classification and processes for athlete class verification.
- Provide the best possible working environment to ensure accurate classification of athletes during the Games.
- Develop transparent policies and procedures for sport class allocation, while maintaining the integrity of sport specific classification systems.
- Enable athletes to focus on preparation for competition without being distracted by unnecessary classification issues.

Paralympic Sport Class and Paralympic Sport Class Status

The Paralympic Sport Class is the category defined by each IPSF in which athletes are categorized by reference to his/her functional ability. Athletes are allocated a Sport Class on the basis of Sport's Classification Rules.

The Paralympic Sport Class Status of an athlete is assigned by the relevant sport prior to the Beijing 2008 Paralympic Games and indicates the Athlete Evaluation requirements and protest opportunities. The Paralympic Sport Class Status can change during the Beijing 2008 Paralympic Games as a consequence of the Pre-Games Classification Evaluation.

Paralympic Permanent Status (PPS)

PPS is assigned to athletes who have been internationally classified according to the relevant Sport Rules and are not under review.

PPS athletes will not be required to undergo classification evaluation at the Beijing 2008 Paralympic Games.

Paralympic Review Status (PRS)

PRS is assigned to athletes who have been internationally classified according to the relevant Sport Rules, but are subject to review.

PRS athletes are required to undergo classification evaluation during the scheduled classification period and/or observed during competition at the Beijing 2008 Paralympic Games according to the relevant Sport Rules.

Athletes assigned a PRS may have a changing or progressive condition that requires ongoing evaluation.

Paralympic New Status (PNS)

PNS is assigned to athletes who have not been internationally classified according to the relevant Sport Rules. Only in exceptional circumstances are PNS athletes eligible for qualification to the Beijing 2008 Paralympic Games.

PNS athletes are required to undergo classification evaluation at the Beijing 2008 Paralympic Games during the scheduled classification period and according to the relevant Sport Rules.

Responsibilities of the NPCs

Only athletes who meet sport-specific classification requirements, have a designated international Sport Class and Sport Class Status, and meet the Beijing 2008 Qualification Standards are eligible for entry to the Beijing 2008 Paralympic Games. It is the responsibility of the NPCs to ensure that their athletes are appropriately classified in the respective sports prior to the final entry date of July 7, 2008.

The Classification Master List will include all available information on the class and status of each athlete intending to compete at the Beijing 2008 Paralympic Games. The NPCs will have the responsibility to verify the

classification status of their athletes prior to their arrival in Beijing on the basis of the Classification Master List (CML) which will be sent to them regularly from February to May 2008.

Classification Procedures

The Beijing 2008 Paralympic Games Classification Guide will be available to the NPCs in February 2008, which outlines detailed classification rules and regulations that will apply during the Beijing 2008 Paralympic Games.

For more information on sport-specific classification, please contact the relevant International Paralympic Sport Federation (IPSF) or the IPC.

Classification Coordination Centre (CCC)

CCC, located in the Paralympic Village, will function as the command and coordination centre to oversee the whole classification process during the Classification Evaluation Period. It will be open during September 1–5, and its function will be carried out in the Sport Information Centre (SIC) from September 6 to 17.

Sport Classification Location and Schedule

Classification Evaluation for Shooting will take place at Beijing Shooting Range Hall from September 1 to 4, 2008.

During the Beijing 2008 Paralympic Games, athletes and officials will reside in the newly-built Paralympic Village. The Beijing Paralympic Village is located at the northern end of Beijing's north-south "central axis" and is a key component of the Olympic Green for the Beijing 2008 Paralympic Games. It spreads across about 66 hectares and lies adjacent to the Olympic Forest Park to its north and the major Paralympic venues to its south. It is a beautiful area with convenient transportation.

The Paralympic Village will be open on August 30, 2008 and close on September 20, 2008. It is composed of three neighboring zones, the Residential Zone where the NPC delegations are housed, the International Zone which contains retail and recreation services and the Operational Zone where transport and logistic facilities are located. Valid Paralympic Village accreditation is required to access the three zones.

During the Games-time, about 4,000 Paralympic athletes and 2,200 NPC team officials (including 1,800 wheelchair users) will be living in the Village where accessible facilities will be ready in the residential buildings and public domain. There will be two buildings hosting approximately 1,000 Games Officials in the Village.
