## About the Sport Information Books

Published in January 2017, the Sport Information Books offer a detailed introduction to each sport at the PyeongChang 2018 Paralympic Winter Games, as well as provide information on a variety of other fundamental topics that may be of importance to teams as they continue their planning and preparations. *Sport Information Books* is the new name for what was called *Sport Explanatory Books*.

This guide is divided into several sections:

- Sport-specific information on subjects such as the competition venue and format; rules; training; and qualification criteria;
- General information touching on the athletes' village, transport, doping control and awards;
- (appendix) A venue map, a venue fact sheet and a daily competition schedule for all sports.

All information provided in this Information Book was correct at the time of publication in January 2017; however, please note that details may change between this date and the Games. NPCs are advised to check the PyeongChang 2018's NPC Extranet ([extranet.pyeongchang2018.com](http://extranet.pyeongchang2018.com)) for important updates on topics, such as the competition schedule.

Detailed Team Captains' Manuals, covering Games-time plans for every Paralympic sport, will be distributed to NPCs in January 2018.

## Competition Format

In case of any divergences, the Competition Rules in effect prevail.

The format for the men's and ladies' Para alpine skiing competitions is identical; however, they are held as two separate events on two different courses except for slalom which will be held on the same slope with different start elevation.

### Downhill

Each athlete competes one run down the course with their finish time determining the final order based on ascending time. Athletes ski down a long, steep course and must pass through a relatively few number of gates. If an athlete misses a gate they are disqualified.

### Super-G

A speed event where each athlete completes one run down the course with their finish time determining the final order based on ascending time. The course is generally shorter than downhill, but longer than slalom and giant slalom.

### Slalom and Giant Slalom

Each athlete competes two runs on the same day on different courses. Times from the two runs are added together to determine the final order based on ascending total time. It is a technical event over a shorter course than other events but with a high number of gates that the athlete must negotiate. If an athlete misses a gate they are disqualified.

### Super Combined

A combined competition which represents the final result of two disciplines: Super-G and a single run of Slalom. Each athlete competes two runs on the same day on different courses. Times from the two runs are added together to determine the final order based on ascending total time.

## Team Captains' Meetings

The first information meeting will take place on the day before the first official training day.

All Para alpine skiing team captains' meetings will be held as per World Para Alpine Skiing rules and regulations. The date, time and location of the meetings will be approved by the World Para Alpine Skiing Technical Delegate.

## Protests

Protests must be submitted in writing within 15 minutes of the posting of the unofficial results. The protest must be submitted in English, accompanied by 100 Euros or Korean equivalent, in accordance with World Para Alpine Skiing rules. The competition jury handles the protest in accordance with World Para Alpine Skiing rules and regulations.

## Competition Equipment

All equipment and accessories must conform to World Para Alpine Skiing equipment rules. Equipment inspection is carried out according to World Para Alpine Skiing equipment rules.

## Awards

An in-venue medallist recognition announcement will take place following the completion of each medal event. Immediately after racing has finished in a medal event, the winners of the gold, silver and bronze medals will gather in a designated area on or near the field of play. Their names and rankings will be announced to the spectators, but no gifts or medals will be presented. There will also be no raising of their countries' flags or playing of any anthems. The announcement is a short opportunity for photographers and broadcasters to capture post-race images of the winners. Athletes may carry with them their sport equipment as long as it complies with the IPC Manufacturers Guidelines.

Victory Ceremonies, including the presentation of medals, will take place at the Paralympic Medals Plaza in PyeongChang on the same day except when the competition event is late in the day, in which case it will be held the following evening. For the events which will take place on the last day of the Paralympic Winter Games, the Victory Ceremony will be held at the competition venue.

Medallists and presenting officials should arrive at the Paralympic Medals Plaza by 18:00. Victory Ceremonies will begin at 19:00h each evening.
